From Guidelines to Action: Movement Disorders Care Through Regional & Multidisciplinary Collaboration

Course Description

From Guidelines to Action: Movement Disorders Care Through Regional & Multidisciplinary Collaboration is an educational program presented by the International Parkinson and Movement Disorder Society (MDS). This course provides an overview of current best practices in the management and care of patients with movement disorders, with a focus on translating clinical guidelines into practical, real-world applications.

Participants will explore strategies for improving patient outcomes through interdisciplinary teamwork and shared clinical decision-making. The program highlights common challenges across diverse care settings and offers practical tools to strengthen collaboration among all members of the care team.

Learning Objectives

After participating in this activity, the learner will be able to:

- Critically review current best practices in the diagnosis, treatment, and multidisciplinary management of Parkinson's disease and other movement disorders.
- Identify common motor, cognitive, behavioral, speech, swallowing, and quality-of-life challenges experienced by individuals living with movement disorders.
- Discuss the roles of interdisciplinary healthcare professionals in the evaluation, treatment, and long-term management of patients with movement disorders across diverse care settings.
- Apply practical strategies to improve patient outcomes through collaborative care, shared clinical decision-making, and evidence-based interventions.
- Describe emerging approaches and evolving therapies in movement disorders care, including surgical therapies, genetics, precision medicine, and rehabilitation-based interventions.

Overall Goal Statement

This program aims to bridge the gap between evidence-based guidelines and coordinated, multidisciplinary care for individuals with Parkinson's disease and other movement disorders by strengthening clinicians' ability to deliver comprehensive care that improves patient function, safety, quality of life, and long-term outcomes.

Accreditation Statement – Accreditation Council for Continuing Medical Education

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME). The International Parkinson and Movement Disorder Society is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement

The International Parkinson and Movement Disorder Society designates this education activity for a maximum of *13.25 AMA PRA Category 1 Credits™*. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Recordings Prohibited

Audio and videotaping are not allowed during the course. Photography of the presentations and slides is not allowed during the activity. This includes mobile phone photography.

Course Evaluation & Certificate

Course evaluations and certificate of attendance are available online. To access:

1. Visit https://education.movementdisorders.org
2. Click "GET CERTIFICATE" in the upper right corner.
3. Once prompted enter the certificate code **1115865.** You will be prompted to fill out your course evaluation and upon completion, you will be able to download your certificates of attendance and CME.

Content Validity Statement

All recommendations involving clinical medicine in MDS activities are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the case of patients. All scientific research referred to, reported or used in CME in support or justification of a patient care recommendations conforms to the generally accepted standards of experimental design, data collection and analysis. Activities that promote recommendations, treatment or manners of practicing medicine not within the definition of CME or are known to have risks or dangers that outweigh the benefits or are known to be ineffective in the treatment of patients do not constitute valid CME.

Satisfactory Completion

Participants must complete an evaluation for each session they attend to receive continuing medical education credit. Your chosen session(s) must be attended in their entirety. Partial credit for individual sessions is not available.

Disclosure of Financial Relationships

All individuals in control of content for this activity are required to disclose all financial relationships with ineligible companies (as defined by the ACCME) over the last 24 months. Disclosure information is available below. All relevant financial relationships have been mitigated in advance of this program.
